PEOPLE PROTECT WHAT THEY LOVE

Speedo's PowerFLEX ECO is an innovative and earth-friendly fabric that is made using Ecnyl®, a nylon yarn that is 100% regenerated from other nylon products at the end of their lifecycle. Speedo has partnered with Aquafil, Ecnyl's parent company, to create a pilot program that regenerates all the waste scraps that are left over from our PowerFLEX ECO suit production. To date, we've prevented around one ton of Ecnyl scrap from going into a landfill or being incinerated.

A little less waste in the world is good for us all.

Made from 100% pre and post consumer waste nylon yarn.
